Well Fly Evermore Evermore - We ll Fly Tabbed By J_Willis Intro $C-G-D \times 2$ C New York symphony, out across the sea С As I smile and think of you С Crowded city streets, rushing over me C In every face a glimpse of you Am And you said \mathbf{Em} So walk with me, into something new The valley of peace comes into view We all need a friend to carry us through You found it in me, I found it in you C We will meet again, down the road my friend Round the rivers bend, this is not the end, the end When we re face to face, when the time arrives There will be no chains, only open sky And we ll fly C A long forgotten scene, a space between my dreams One day soon we will be home
