Fall Apart
Every Avenue

```
C#                                      F#
Electrified, we burn all night
B flat minor                    G#
Paralyzed by black and white
      C#                             F#
But who are you, and who am I
B flat minor                          G#
Electrified, we burn all night

                        C#
I want you to fall apart like I did
          F#
You to hurt for all of this
              B flat minor
All the pain you put me through
                        G#
I wanna hear you say
I don t deserve you
C#
Fall apart like I did
            F#
You to hurt for all of this
              B flat minor
All the pain you put me through
                    G#
I wanna hear you say
I don t deserve you
C#
Fall apart

C#                                  F#
Terrified by waking eyes
B flat minor                              G#
The empty space you left behind
      C#                          F#
But who are you, and who I am
B flat minor              G#
Terrified by waking eyes

                        C#
I want you to fall apart like I did
          F#
You to hurt for all of this
              B flat minor
All the pain you put me through
                        G#
I wanna hear you say
```

```
I don t deserve you
C#
Fall apart like I did
             F#
You to hurt for all of this
           B flat minor
All the pain you put me through
                   G#
I wanna hear you say
I don t deserve you
C#
Fall apart

B flat minor    G#       C#      F#
Oh                  oh oh, ohhh oh
B flat minor    G#       C#      F#
Oh                  oh oh, ohhh oh
C#
Electrified, we burn all night

                        C#
I want you to fall apart like I did
           F#
You to hurt for all of this
             B flat minor
All the pain you put me through
                     G#
I wanna hear you say
I don t deserve you
C#
Fall apart like I did
              F#
You to hurt for all of this
             B flat minor
All the pain you put me through
                   G#
I wanna hear you say
I don t deserve you
C#
Electrified, we burn all night
```
