[Verse]
Am   **G**
I don t want to be here with you
If I have to hold your hand
Am   **G**
I don t want you to be with me
Until you find someplace to land
Am
I only need you
                                    G
If you don t want to let me go
                                         F
So maybe you should give me a sign
                              C
Before you walk out the door

[Chorus]
                                    G
Cause I can t live with all this lying
                              F
You don t want to see me crying

But it s time to know
        G
Do I hold you close
     F   **C**
Or let you walk away

                                    G
Because I can t keep you from flying
                              F
Even though I m good at trying
I hate to loose
        G
It s time to choose
     F   **C**
To let you walk away
                    G - **F** - **G** - **F**
```
```

Let you walk away

[Verse]
Am   **G**
I ve never been here before
                                       Am
And I don t want it to end
                         G
You tell me you love me
                                     Am
But you only treat me like a friend
                     G
Sometimes we get lazy
                               Am
And we don t have time to grow
                   F
It s making me crazy
                           C
And it s time to let you know

[Chorus]
                                     G
Cause I can t live with all this lying
                           F
You don t want to see me crying

But it s time to know
         G
Do I hold you close
    F   **C**
Or let you walk away

                                 G
Because I can t keep you from flying
                         F
Even though I m good at trying
I hate to loose
        G
It s time to choose
    F   **C**
To let you walk away
               G - **F** - **G** - **F**

Let you walk away

[Bridge]
A
Give me the world
                          F
I ll give you the sun
                G
To be the only one
A
All of my life
                  F
All of my soul
                  G   **A** - **F** - **G**
If I could tell you not to go

[Chorus]
C   **G**
There s no point in all this fighting
                                        F
If I m the only one who s trying
So it s time to know
        G
Do I hold you close
      F   **C**
Or let you walk away

                          G
I can t keep you from flying
                                  F
Even though I m good at trying
I hate to loose
        G
It s time to choose
      F   **C**
To let you walk
                  G   **F**   **G** - **F** - **C**
Let you walk away, walk away, yeah

[Outro]
The outro just repeats the
same C - G5 - F - G5 - F pattern

Ooohhhh, ohhhhh
Give me the world
I ll give you the sun
To be the only one
Would you be my only one
Baby be my only one
All my life all my soul
If I could tell you not to go
Could I tell you not to go
Baby don t leave me here alone
All my life all my soul
If I could tell you not to go
Could I tell you not to go
Baby don t leave me here alone
