Verse 1:

Now you said that all would be just fine
And I know that changes come with time
Still sometimes I don't want the times to change

Pre-Chorus

And I know tomorrow you'll be gone
So I know tomorrow will move on
But maybe part of us will stay the same

Chorus:

Don't fall asleep
We don't want to miss a moment
Cause tonight might be the best night of our lives
Don't close your eyes
We could stay right here forever
Cause tonight might be the best night of our lives
