Just play the intro through the Verses

I wish I took a photograph
Just so the memory will stick

You made me win
When I deserved to lose
I don t know where I would be without you

Chorus-

B **F#**
I was starting to come undone

Then you came to me where I was
E Eb E Eb E Eb
Lost and out there somewhere stranded

F#
You began right where I ended
B F#
I was starting to come unglued

But then you did what you always do
E Eb E Eb E Eb
I was out there somewhere stranded
F#
But you began right where I ended

Verse 3-

There are just days

When life has just got you down
When the only thing that you feel is your doubt

Verse 4-

I have been there
I remember everything
And I m not going back, I m safe with you now

G#m **E Eb E EbE Eb**
