

## Duet

### Everything Everything

Everything Everything - Duet

I m pretty sure this is right other than maybe the bits in the chorus between vocals.

The G#m and the F#m may sound better as G#5 and F#5.

Please rate and comment and stuff. Thank you :)

**E**

**A**

Do you feel left behind?

**E**

Like there s something not right?

**B**

**A**

I don t think I ve been connected

**C**

**E**

**D**

But of all the dead volcanos on Earth you just happened to retch

And roll, Through mine

**A**

**E**

There were fistfuls of hair round the foot of my chair

**B**

**A**

And echoes of screams before me

**C**

**E**

But breathing out I swear you were real

**D**

You were there

**A**

You were there

**E**

You were there

**B** **A**

For a while

**B** **C#m** **A** **G#m** **F#m**

But I don t know what s real and what s going on

**B** **C#m** **A** **G#m** **F#m**

And I don t wanna be here when the sky is gone

(I just can t keep up with it, I)

**B** **C#m** **A** **G#m** **F#m**

I don t wanna think about it all, I m tired

(Nothing s good, there s something more)

**B** **C#m** **A** **G#m** **F#m**

I don t wanna think about it all, I m tired

**A**

It was somewhere to wink

**E**

It was slipped in my drink

**B**

**A**

A necropolis for the taking

**C**

**E**

**D**

But all the cities fall into war and there s nothing but knives

and fears and forks

**A**

**E**

Seems the more I find out, the more I m sure of it girl

**B**

**A**

**C**

**E**

And baby I get the feeling, there s somewhere darkened over it

**D**

And it s here (I feel it coming, one, one step from nothin )

**A**

And it s here (I feel it coming, one, one step from nothin )

**E**

**B**

**A**

And it s here for a while (I feel it coming, one, one step from nothin )  
(I-I, I-I)

**B**

**C#m**

**A G#m F#m**

But I don t know what s real and what s going on

**B**

**C#m**

**A G#m F#m**

And I don t wanna be here when the sky is gone

(I just can t keep up with it, I)

**B**

**C#m**

**A G#m F#m**

I don t wanna think about it all, I m tired

(Nothing s good, there s something more)

**B**

**C#m**

**A G#m F#m**

I don t wanna think about it all, I m tired

(Keep the same chords going here)

But I can hear them plunderin the streets at night

You never shoulda told them what you had inside

And I don t want my children in an endless race

And I don t wanna wait to see what else they take

(So far I m in love with you, I m)

And all that matters now is that we don t let go

(And I can tell they re watching for it)

And you can be my wonder in my town of woe

(Time to let the genie out)

If it s gonna happen let it happen now

If it s gonna happen let it happen now!

Outro - **B C#m A G#m F#m**
