Couldn't seem to find this tab anywhere, so here it is!

Very very easy, only a couple of chords and simple downward strumming

D can be played as D7, G must be played as a power chord:

	D	G	Em	F#
e	-----			
B	-----			
G	-7---0---0-----			
D	-7---5---2---4--			
A	-5---5---2---4--			
E	-----3---0---2--			

Tuning: Standard EADGBE

**D**

Hey, good morning

**G**

Hey, it's calling

**D**

Hey, good morning, Watch the sun come up

**G**

It's calling, I want another day with you

**D**

How can I explain it scratchin my brain

How can 10 hours feel like 10 years?

I cry 10 men's tears as it disappears

With the passionate atmosphere

**G**

Took your glove as a souvenir

Left the other on the pillow as I stroked your ear

One last breathe of your hair

Stared for a second, then the doorway beckoned

**D**

I'm a lover not a fighter

So I didn't fight the fact that I more than liked ya

Didn't matter we were under influence

Made sense this was more than lust

**G**

I donâ€™t own you, you donâ€™t own me

One night only, if only

I could take you back and just show you off

But I guess if I did that, the magic is lost

Pre chorus:

**E F# G**

Believe me I wanna stay

**E F# G**

But I m off and away

Chorus:

**D**

Hey, Good Morning

Watch the sun come up

**G**

Itâ€™s calling

I want another day with you

**D**

Hey, Good Morning

Watch the sun come up

**G**

Itâ€™s calling

I want just one more day with you

Verse 2:

**D**

You and that red dress - What a pairing

I kept staring, you couldnâ€™t have said less

Cant let my head rest, thinking about ya,

Really wanna look into your catwoman eyes

**G**

Turn back time, cause it flies by

You know, them Marty mcfly vibes

See, I can picture the bright lights

Sights and night skies and boats go by

**D**

I donâ€™t why it happened so fast

When I tried to speak your language I m happy you laughed

Cause Iâ€™m hardly a linguist

Spoke through kisses you didnâ€™t speak English

**G**

And It was hard to distinguish

Love at first sight or holiday romance?

Donâ€™t care I was lost in the moment

I really shoulda missed that flight

Pre Chorus

Chorus

Bridge:

**E F# G**

I donâ€™t think I could be dreaming I felt your touch

**E F# G**

No I remember you breathing when I woke up

**E F# G**

Now all I have are these memories I can t trust

**E F# G**

Just one day, wont be enough

Chorus
