

**Ghost**  
**Extreme**

**C** **C/B**  
Tell me, there s no need to be afraid  
**Am**  
They re only shadows cast, past this place  
**C** **Bb**  
Where voices carry at the speed of sound  
**Am** **G**  
If I should cry before they lay me down

**F** **Am**  
Sorry for the words, words I left unsaid  
**F** **Am**  
Sorry being one of the words I did forget  
**F** **G#**  
All the time we spent, wasted in the end  
**Am** **G**  
Every precious moment taken for granted  
**F**  
There in the corner of my mind  
**Am**  
Lies the weight of my regret  
**F**  
Between the shadow and the light  
**G**  
Ghost you re in my head

**C** **C/B**  
Shelter from the storm when I sleep  
**Am**  
There s comfort in the morn, a siren sings  
**C** **Bb**  
If only for a moment, I can breathe  
**Am** **G**  
The thought of you comes crashing through on me

**F** **Am**  
Sorry for the words, words I left unsaid  
**F** **Am**  
Sorry being one of the words I did forget
