Who was the guy? **Am**
What was his name? **Em**
Where does he live? I bet you ve been to his place **F C**
You say nothing happened, oh you play dumb **Am Em**
Why are you lying? Just admit what you ve done **F C**
Where does he live? I ll just ask him **Am Em**
All of the ugly underneath your skin **F Am**

[Chorus 1]

And I see it now, you re there in his room **C G**
With all of the things I told to no one but you **Am F**
When you said they were safe, you said so was I **C G**
If for no least for your wandering eye **Am F**

[Verse 2]

All you [?] **Am**
This is your place **Em**
Hear you been bragging about the way she tastes **F C**
You know who I mean, you knew she was mine **Am Em**
This is the rat s nest, the scene of the crime **F C**
You son of a bitch and you smug little cunt **Am Em**
We ll see how you smile when its burned to a stump **F Am**

[Chorus 1]

C G

And I see it now, you re there in his room
With all of the things I told to no one but you
When you said they were safe, you said so was I
If for no least for your wandering eye

[Chorus 2]

And nobody cared, it was just us
Down in the dirt, in the drugs, in the dust
When you called my name, all night
If for no least for your wandering eye

[Piano Break]

[Chorus 1]

And I see it now, you re there in his room
With all of the things I told to no one but you

And nobody cared, it was just us
Down in the dirt, in the drugs, in the dust
When you called my name, all night
If for no least for your wandering eye
