This is my own interpretation of the song.

Intro/Chorus:

G **C**
Right as rain... Right as rain...
 C **D**
You just kicked me in the teeth again,
C **D**
Pushed away my only friends,
 C **D** **G**
But in the end we ll still be right as rain.

Verse 1:

D **G**
I was behind you, tried to hell to find you,
 E **G** **D**
We were lost and never wanted to be found.
 D **G**
I was so blind then, left it all behind when,
 E **G** **D**
You said you would never kick me to the curb.
 C **D** **G**
I m leavin but I just can t find the words.

Chorus:

G **C**
Right as rain... Right as rain...
 C **D** **G**
I m here beaten up and broken down again.
 G **C**
Right as rain... Right as rain...
 C **D**
You just kicked me in the teeth again,
C **D**
Pushed away my only friends,
 C **D** **G**
But in the end we ll still be right as rain.

Verse 2:

I m nothing like you, but I can t deny you
And I feel like I m stuck inside looking out.
I tried to push back, got myself on the wrong track,
It felt like anything was better than this mess.
You couldn t care about me any less.

Chorus:

Right as rain... right as rain...
I m here beaten up and broken down again.
Right as rain... Right as rain...
You just kicked me in the teeth again,
Pushed away my only friends,
But in the end we ll still be right as rain.

Verse 3:

Since your not with me, a sinking feeling inside me,
I tell myself I m better off somehow.
But I know you ll find me, and some day you ll remind me,
Sometimes it s easier to give up than to give in.
And you ll be there to meet me in the end.

Chorus:

Right as rain... Right as rain...
I m here beaten up and broken down again.
Right as rain... Right as rain...
You just kicked me in the teeth again,
Pushed away my only friends,
But in the end we ll still be right as rain.
