

**Stuck On You
Failure**

This isn't the exact tuning, but this is just how I play my acoustic cover of the song :) I hope this can help some people out.

G# **B**
I heard you driving in my car
Fm
Then in a frozen bar
Bbm **C#** **G#**
And I claimed I didn't care for you
B
But your verse got trapped inside my head
Fm
Over and over again
Bbm **C#**
You played yourself to death in me

G# **B**
I thought I'd drop you easily
Fm
But that was not to be
Bbm **C#** **G#**
You burrowed like a summer tick
B **Fm**
So you invade my sleep and confuse my dreams
Bbm **C#**
Turn my nights to sleepless itch

G# **B** **Fm**
Stuck on you till the end of time
Bbm **C#** **G#**
I'm too tired to fight your rhyme
B **Fm**
Stuck on you till the end of time
Bbm **C#**
You've got me paralyzed

G# **B**
Holding on the telephone
Fm

I hear your midrange moan
 Bbm **C#** **G#**
You re everywhere inside my room
 B **Fm**
Even when I m alone I hear your mellow drone
 Bbm **C#**
You re everywhere inside of me

G# **B** **Fm**
Stuck on you till the end of time
 Bbm **C#** **G#**
I m too tired to fight your rhyme
 B **Fm**
Stuck on you till the end of time
Bbm **C#**
You got me trapped inside

Bridge:

G# **B** **Fm** **Bbm**
I can t escape your incessant whine
C# **G#** **B** **Fm** **Bbm**
When you beam it out all across the sky
C# **G#** **B**
No I can t escape
(stuck on you till the end of time)
 Fm **Bbm**
your insipid rhyme
(I m too tired to fight your rhyme)
C# **G#** **B**
When you shoot it deep
(stuck on you till the end of time)
 Fm **Bbm** **C#**
Straight into my mind

End on **G#**
