          D          Am          C          G  
Must ve been in late September  
          D          Em D C          G  
When last I climbed Reunion Hill

Fell asleep on Indian Boulder  
          D          C          D          G          D  
Dreamed a dream I will not tell

[Verse]

                          C          G          D  
I came home as the sun went down  
                          C          D          G  
One eye trained upon the ground  
          D          Am          C          G  
Even now I find their things  
          D          C          D          G          D  
Glasses, coins and golden rings

G D Am C G D Em D C  
G D Am C G D C D G

[Verse]

          D          Am          C          G  
It s ten years since that ragged army  
          D          Em          D C          G  
Limped across these fields of mine  
          D          Am          C          G  
Gave them bread, I gave them brandy  
          D          C          D          G          D  
Most of all I gave them time

[Verse]

                          C          G          D  
My well is deep and the water pure  
                          C          D          G  
The streams are fed by mountain lakes  
          D          Am          C          G  
I cleaned the brow of many a soldier  
          D          C          D          G          Am  
Dowsing for my husband s face

[Verse]

I won't forget our sad farewell  
And how I ran to climb that hill  
To see him walk across the valley  
And disappear into... the trees

[Instrumental]

G D Am C G D C D G

[Verse]

Alone there in a sea of blue  
It circles every afternoon  
A single hawk in god's great sky  
Looking down with god's own eyes

[Verse]

It soars above Reunion Hill  
And I pray he spirals higher still  
As if from such an altitude  
He might just keep our love... in view
