

Fireflies
Faith Hill

D A G D A D A

D A G
Before you met me I was a fairy princess

D A
I caught frogs and called them prince

G A
And made myself a queen

Before you knew me I travelled round the world
I slept in castles and fell in love
Because I was taught to dream

G D
I found mayonnaise bottles and poked holes on top

A G
To capture Tinkerbelle

D
They were just fireflies to the untrained eye

A G
But I could always tell

G D G D
I believe in fairy tales and dreamers dreams like bed

sheet sails

G D G
And I believe in Peter Pan and miracles

D A
And anything I can to get by

D A G A
And fireflies

Before I grew up I saw you on a cloud
I could bless myself in your name and pat you on your wings

Before I grew up I heard you whisper so loud

Life is hard, and so is love, child, believe in all these things

I found mayonnaise bottles and poked holes on top
To capture Tinkerbelle

And they were just fireflies to the untrained eye
But I could always tell

(Chorus)

D A G A
Fireflies

D A G A (x2)

Before you met me I was a fairy princess

I caught frogs and called them prince
And made myself a queen
Before you knew me I travelled round the world
And I slept in castles and fell in love
Because I was taught to dream
