

Death Valley
Fall Out Boy

Parte 1:

I wanna see your animal side let it all out
I wanna see the dirt under your skin
I need your broken promises, yeah
I want the guts and glory, baby, baby
This town is wasted and alone

Refrão:

But we are alive here in death valley
But don't take love off the table yet
Cause tonight it's just fire alarms and losing you
We love a lot so we only lose a little
But we are alive (we are alive) we are alive

Parte 2:

I wanna see your animal side let it all out
Oh there you go; undress to impress
You can wear the crown but you're no princess
So put the D in dirt now, baby, baby
Let's get you wasted and alone
