You can add extra strums at the end of each line of the verse (strike the same chord twice, listen to the rhythm).

Also, you can use power chords instead of ones mentioned below (D5 instead of Dm,

B5 instead of B, F5 instead of F and C5 instead of C), it might do as well.

Have fun. :)

Be careful making wishes in the dark

Can't be sure when they've hit their mark

Besides in the meantime

I'm in the details with the devil

So now the world can never get me on my level

[Verse 2]

Ebm

All the writers keep writing what they write

B

Somewhere another pretty vein just dies

I ve got the scars from tomorrow and i wish you could see

That you re the antidote to everything except for me

A constellation of tears on your lashes

Burn everything you love, then burn the ashes

In the end everything collides

My childhood spat back the monster that you see
