

A Guide To Marine Life
Falling Up

Capo 1st fret

The whole song is just:

Am F C G

Am **F** **C** **G**
Float by open windows, what a shipwreck, what a shipwreck
Am **F** **C** **G**
Circles running through my veins, with the vates set, with the vates set
Am
See the lines, see the lines
I start feeling
F
When I m lost, when I m lost
There s no meaning
C
Call it this, call it this
G
Spinning sideways and never stops

Lines in the sky calling me out, calling me out
Constant collide, calling me out, calling me out

Float by open windows, what a shipwreck, what a shipwreck
Glass flies all around me, now my veins let, now my veins let

Call to the trees- there are ways no one sees
I never hear it the same way twice
Because it s in the way they move, you see
The trees, they want us to hear them
