

Blue Ghost
Falling Up

There was no tab for this song so I decided to post mine, I know it s not 100% correct,
but it sounds okay :)

Am **Em**
You can see I am in shock
G **D**
To catch you wearing wires underneath your heart
Am **Em**
It was mechanical
Am **Em**
(But we were) born to endless architecture
G **D**
Spinning to a fault and infinitely strewn

Am
Where you d be ahead of your time

Am **C** **Em** **D**
Cause in this place itâ€™s beautiful

CHORUS

C **D** **Em**
Tracing lines your flaws connect the starry skies
C **D** **Am**(or **Em** and then **Am**)
He is tracing lines like flashes right before your eyes
C **D** **Em**
Grace comes like a thief in the night
C **D** **Em**
It comes like a thief in the night
C **D** **Em**
It blooms in the weak and the blind

Am **Em**
Then they finished their machine
G **D**
It s algorithmic parts perfectly in time
Am **Em**
That s how they found you
Am **Em**
But listen you are born into a landscape

G

D

Thatâ€™s glittering like water and covered by a blood

Am

Em

It has been bruised at the heel, the wireâ€™s been cut
