C add9 ver. 2    Weird D chord\*    C add9 ver.1

And we all go down  
\* X22232

We all go down again  
We all go down  
Swore I d bring you something  
Swore I d make it mine  
Hands above my head stealing sunlight  
from the sky  
And I lost myself when you ran away  
Say no more im on my way  
Anyway goodbye, goodbye, goodbye  
And we all go down  
We all go down again  
We all go down  
And we all go down

Mess about with these C, Em and add9 bits and end with a E minor7 & then do the hammer bit at the beginning and then back to the beginning part

Lyrics second verse:

I will pass on things that I ve been shown  
You ll see too why I feel so alone in this world  
I ll try to be more open with my hope for our time  
Blur the lines dividing what is ours  
And what is mine  
Say no more, I m on my way to the sky

I m not sure about the chorus chords.

I heard this version of the song acoustic & I love it, but I couldn t find the tabs for the song anywhere on the internet. So I decided to try and work it out for myself and post it so other people could see how to play this song. This is my first tab, I haven t been playing guitar for long so I hope there aren t too many mistakes! Please correct me if there are.
