Love Doesn't Kill You Chords
Fastball

It doesn't kill you, it's not a one-way ticket to a lonely life
It might break your heart, but the physical risk is low
You might feel so bad that you wanna die
but if you died you would never know
that it didn't kill you
soon you would've felt better

[verse chords]

are you happy in heaven?
do you win all the games that they play up there?
do you have a new body?
what kind of wings do you wear?

[chorus chords]

I haven't felt so bad that I wanted to die
but if I died I would never know
Love doesn't kill you
it's supposed to make you feel better

[bridge]

You're never going to feel any better
once you're dead, you don't get any deader

A **Bm**
and you get no lovin but you feel no pain
Bm **E**
never have to lose again
