Album: You've come a long way baby

Tabbed by a person.

I worked it out from a guitar so it could be wrong. Brilliant song though.

```
G-----|
D-----|
A-----|
E---0-0-0-3-4--4-----0-0-3-4--4-6-----|
```

Repeat throughout the song, occasionally there is a break with weird electro sounds but no bass.

You'll have to get the timings from the song, but it's quite a simple tune to learn.
