Album - Comfort in Sound  
Tabbed by James(\*)

i noticed that this song is not on the site, which i think is a crime!,  
so i decided to tab it and put it on the site just to do the song justice

This is 100% correct, but since it is my first tab, i would appreciate some  
feedback  
on the timing and strumming patterns for future use. Thanks.

Standard tuning (EADGBE)

This whole song is played with distortion, except the outro, which is played  
clean

That should be correct, let me know if i need to make any changes

LYRICS

find the coloure sight and sound  
a new explosion comes around  
anaesthetic for the mind  
hear the voice that soothes away the pain  
television satellite  
conversation running dry  
sending back another text  
holding onto words you might regret  
you know you might regret

cause

now i can see that i love all the things  
that you do with each day  
and it feels  
so damn good  
every second that passes me by  
with the blink of an eye  
it just feels  
so damn good

find the colour  
find the colour

looking for something new  
a taste of life to pull you through  
defences down you re feeling low  
a change in feeling comes around again  
it s coming round again

cause

now i can see that i love all the things  
that you do with each day

and it feels  
so damn good  
every second that passes me by  
with the blink of an eye  
it just feels  
so damn good

so damn good

read the papers yesterday  
they say the bubble boy s ok  
another day of rain to come  
we re sitting back still waiting for the sun  
waiting for the sun

cause

now i can see that i love all the things  
that you do with each day  
and it feels  
so damn good  
every second that passes me by  
with the blink of an eye  
it just feels  
so damn good

cause

now i can see that i love all the things  
that you do with each day  
and it feels  
so damn good  
every second that passes me by  
with the blink of an eye  
it just feels  
so damn good
