whoa whoa whoa oh  
whoa whoa whoa oh  
How come you never go there  
How come I m so alone there

[Verse]

I went up to your window  
Lightly banging on the cymbals  
a writ into the night  
came storming to your house

My horse had worked the fields too long  
And there had lost its innate calm  
It s true enough for not at peace  
But peace is never where it seems

Our love is not the light it was  
When I walk inside the dark, I m calm  
Where we look for where it went  
It s only echoes in the melody

[Chorus]

**Am**                    **Dm**  
whoa whoa whoa oh  
**Am**                    **F**  
whoa whoa whoa oh  
**C**                                    **F**  
How come you never go there

**C** **Dm**  
How come I m so alone there

[Verse]

We waste time on blame, I wreak revenge  
We use energy and footjections  
We re living proof we gotta let go  
And stop looking through the lay-low

We carry on as if the time is through  
You carry on as if i don t love you  
And so we find the way to lie  
To cover hard I have a doubt

The room s full eyes are empty  
Like your letters never sent me  
Your words are like a lasso  
You re an instrumental tune
