FEX ROSSI - AS WE SAIL THE UNIVERSE
(Capo in 3rd)

G **D**
There was a time when I had to follow you

Em **C**
I had to follow you, just follow you

G **D**
And you'd never knew that I was there for you

Em **C**
a few steps behind, a few sighs around

G **D**
But there were so many seas to sail away

Em **C**
I met the deepest blue, and fear the Ocean moods

G **D**
to came back home and find no place

Em **C**
to see no face, to get no rest - no rest

G **D** **C**
There's still no time to give up

G **D** **C**
there's still no time to fall

G **D** **C**
Sometimes I can remember

G **D** **C**
when I still felt the hurts

G **D** **C**
My starship never stops, anyway

G **D** **C**
as we sail the Universe

G **D**
So let me sing my song again

Em **C**
let me hear myself, and to fade down the pain

G **D**
'Cause there's no way to change the things as they are, they said

Em
no matter here or there
C

no matter what you said

G **D**
I'll find a way, and I will follow you

Em **C**
I will follow you, I'll just follow you

G **D**
From empty skies I will follow you

Em **C**
I will follow you, I'll just follow you

G **D** **C**
'Cause there's no time to give up

G **D** **C**
'Cause there's no time to fall

G **D** **C**
and sometimes I still remember

G **D** **C**
the way it feels the hurts

G **D** **C**
My starship never stops, anyway

G **D** **C**
as we sail the Universe.
