Iâ€™ve known you, Iâ€™ve hurt you, Iâ€™ve begged you, or i try  
Iâ€™ve failed you, iâ€™ve betrayed you, iâ€™ve loved you, or i try  
But I never knew where can I found you, how could I reach you  
as I never found the hidden path, troughout this darkness  
to hold you, to get you, to feel you, to rest  
to see you, to meet you, to make love to you, to rest

**G (C/A) (2)**

**G D Em C**  
I accepted you, I asked you, I losed you, I try  
I needed you, I seek you, I lied to you, I try  
But I never knew how could I move you, how could I rock you  
As I canâ€™t find out how can I stop me along this endless road  
To take me, to accept me, to hear me, to rest  
To hold me, to got me, to love me, to rest

Thereâ€™s an old woman she wears a very large coat, walking hard, seeing straight  
**C**  
Wondering for her lost beautiful son  
**G D Em**  
And I aÃ–nt seen my own sister for at least ten years, thought Iâ€™d saw her  
eyes once,  
**C**  
last night in dreams

**G D Em**  
nightmare riders down on me  
**C G**  
perfect madness, need that bleed  
**D Em C**  
Iâ€™m a thousand miles and canâ€™t stop driving  
**G D Em C**  
Iâ€™m a million miles yet keep on riding
