

## Its Still The Cross

FFH

C

Sometimes it seems

**Fm7**

The world s unraveling around us

**F Csus 4 6 (no5) C**

We fear it all may one day come undone

**Fm7 F**

We can t forget the One who came before us

**Csus 4 6 (no5) F**

To forgive the past and bring hope for

**C**

what s to come

**F Am**

When it all comes crashing down

**C**

The cross still stands alone

**Fm7 F**

And on this our faith is built

**Am F**

And our courage is made strong

C

When the world falls apart

**Fm7**

And you fear for your heart

**Am**

There s a tower of peace

**G C Cm9 C**

It s still the cross

So bring your sick and your poor

And your longing for more

To the place of relief

It s still the cross

There is hope for the lost

It s still the cross

Sometimes it seems that I have been forgotten

I don t know how I will make it on my own

But the One who said I will never be forsaken

He still hears my prayer and I will never be alone

When it all comes crashing down

The cross still stands alone

And on this our faith is built

And our courage is made strong

**Am G**

Though the world may not confess

**F**

You and Your holiness

**Am G**

One day all will see

**Am G**

You in all Your majesty

**Am Fm7**

And the cross will stand alone

**Cm9 Fm7**

As the place where You made known

**Fm7 Am**

Your love for all mankind

**Fm7 G**

Till then in it we ll hide
