Field Report - I Am Not Waiting Anymore

F **Bb** **F**
I am red in tooth and claw
F **Bb** **F**
God s favorite child, bloodied from the brawl
F **Bb** **F** **C** **Bb**
This bitterness was killing me all along
F **C** **F**
I am not waiting anymore x2

Blowing through time like nickel slots
In a windowless room, on a credit card
Flash it like a semaphore, a vague, drafty metaphor
I am not waiting anymore

C **Dm** **Bb**
I ve been a keen eyed observer of the movements of concentric parts
Gm **F** **C**
Of bodies of bones and breasts and unmapped chambers of hearts

Sand in hand has turned to glass
A Jeroboam filled with a life that s passed
Toss it off the balcony and listen for the crash
I am not waiting anymore

I spent eight long years working on my screenplay
It s a teen movie with young actresses that plays to the middle aged

I have read between the lines
I have been wrong every time
It burned up on the alter, but I am fine
I am not waiting anymore x3
