Leaving
Fight Or Flight

[Intro]
Dm Bb Am/A

[Verse 1]
Dm
Time lost, miles away
In a world of bullets
Bb   **F**
In a bed, an empty space
            Am
A picture frame, a portrait

Dm
The night falls, I m awake
I m left to rust in silence
Bb   **F**
Withdraw my mistakes
              C
I m left to trust in violence

[Pre-Chorus]
Dm E F A

Bb
Well can you teach me how to fly
In a world so shallow?

Dm E F A

Bb   **C**
Will you show me I m alive
          Am
Or find a way to get home

[Chorus]
Dm
   Well I m alive
But paralyzed
                        Bb
By the sight of bloodshed fights
                        Am
Shoot em right between the eyes
              C
Can I let it go

When I m leaving?

Dm
   I m weak inside
But built to fight
                               Bb
Living life through compromise
                       C
Terrified to prove me right
                  Am/A
Can I let this go
When I m leaving?

[Verse 2]
Dm
Headstones borrow names
Inscribed by anxious patients
Bb   **F**
A fate calls, a blurry fate
                Am
Lies in the hands we re chased with

Dm
I m bearing all
Bombs away
                             Bb
Curing fear with makeshift plans
                                   F
Conquer the fall, we ll do it
               C
Comfort the fall with bullshit

[Pre-Chorus]
Dm E F A

Bb
   Can you teach me how to fly
In a world so shallow?

Dm E F A

Bb   **C**
Will you show me I m alive
           Am
Or find a way to get home

[Chorus]
Dm
   Well I m alive
But paralyzed

```
                              Bb
By the sight of bloodshed fights
                                  Am
Shoot  em right between the eyes
              C
Can I let it go
When I m leaving?

Dm
   I m weak inside
But built to fight
                            Bb
Living life through compromise
                        C
Terrified to prove me right
                  Am/A
Can I let this go
When I m leaving?
