Tuning: EBGDAE

Am - F - C - G (All The Way Through)(Pick during verses)

AM

You and I

F **C**
Will never make it out of here

G
Alive

Please just let us go insane
We re travelling where spiders lay eggs
With our heads above the waste
The water broke our fall

You and I
Will never make it out of here
Alive

You and I
Will never make it out of here
Alive

I can t carry on for long
I ll start to feel the pain again
Now the days are all the same
Losing sight and hold of home

You and I
Will never make it out of here
Alive

Cause there will come
A day when you silence
The crowds

And you and I
Will never make it out of here
Alive

It feels as black as the thoughts I had
When the road was as dark as my fears
And just take comfort in knowing that
All of this ends when I am done

Please just let us go insane
There s nothing to declare but ours

You and I
Will never make it out of here
Alive

Cause there will come
A day when you silence
The crowds

Because you and I
Will never make it out of here
Alive

This tab may not be %100 correct as i was listening to Fightstar one day and i
just
came out with that chord sequence.
For Fightstar fans you will know when the chord changes and i hope i made it
clear with
first diagram.
