FINNEAS

[Primeira Parte]

I think you re gonna change my plans
With those emerald eyes
But you don t even understand
How much they re on my mind

[Pré-Refrão]

Feels like I m breathing in and out without permission
Waiting on your badges by the phone
I might be headed in the opposite direction
But I d love to drive you home

[Refrão]

Oh, I m in trouble now
Come kiss me black and blue
Might last another round
But I m bound to fall for you

[Segunda Parte]

Taking a stranger s hand
I got familiarized
Now without a second glance
I wouldn t save the night
I d spend it all, every penny on you
There s nothing in my wallet

Worth a thing I can't lose

Am **C** **G** **F**
I'd spend it all, every penny on you-ou
