How can you say there was nothing wrong with us?

C G Em D
When everyday you called, you yelled, you had enough

C G
I loved you more and more each time you slammed the door

Em D
My bloody knuckles knocking on and on the bruise

C G Em
But I loved you less and less as my love turned to loneliness

D
And I d already lost what I was afraid to lose

C G Em D
Now I m in love without you

C G Em D
Please don t still love me

C G Em D
I m in love without you

C G Em D
But you still find a way inside my dreams

C G Em D
Now, can you see, why you should get over me?

C G Em D
Soon there will be someone else for you to learn to need

C C
You loved him more and more as you stopped keeping score

Em D
Of who I was and what we were and when we knew

C G
You loved me less and less as you lean in against his chest

Em D
And hear the heartbeat that only beats for you

C G Em D

Now I m in love without you
