[Verse 1]

**G**

Is it your fear of losing

**C**

That makes you go further

**Em**

What makes me wonder friend

**A7**

Is how you get away with your lies

**G**

Cause maybe you haven t noticed

**C**

That I appreciate your company

**Em**

And every time you have to go

**A7**

I regret I didn t let you know

**C**

I could love you

**G**

**Em**

And when you hung up the phone

**G**

**Em**

I realized I was alone

**D**

And I can t help it

**C**

You re just so beautiful

**D**

I can t help it

**C**

**G**

You re so beautiful

[Instrumental]

**G C Em A7**

[Verse 2]

**G**

You may have seen the world dear

**C**

But you don t know me

**Em**

That s why all of this

**A7**

Seems so absurd

**G**

I lie awake at night

**C**

Picturing me and you

**Em**

I wish I could make it

**A7**

All clear you see

**C**

I could love you

[Chorus]

**G**

**Em**

And soon the fall is here

**G**

**Em**

Turning us cold

**D**

And I can't help it

**C**

You're so beautiful

**D**

I can't help it

**C**

**G**

You're so beautiful

[Instrumental]

**G C Em A7**

[Breakdown]

**D**

**C**

Oh the morning light

**D**

**C**

But the demons they come at night

**D**

**C**

I want to be your appetite

**D**

**C**

I want to be your good dreams, your bad dreams

**D**

I can't help it

**C**

You're so beautiful
