SAILOR SONG
First Aid Kit

D **G**
With the first light and the little
A **D**
Fragile moon
 D **G**
I was out on the porch now
 A **D**
I m ready for doom
 G **A** **D**
And it s funny how it all came to be
 G **A** **D**
The way you so plainly chose to stare at me

D **G**
And the afternoon embraces you
A **D**
Like a million worried hands
D **G**
And I want to look forward
A **D**
Go discover foreign land
G **A**
In the mirror I was balancing
D
On tiny strings
G **A**
It looks silly but oh really it s just
D
A physical thing

D **G**
So tell me why you ask me
A **D**
To do as I please
D **G**
I would rather fall backwards
A **D**
And forget everything
G **A**
And I ve tried to call on you when
D
I know you re not home

G **A**
I m not ready for this but it s
D
The way it goes

G A D x2

D **G**
It was easier when I knew
A **D**
Nnothing of what I d missed
D **G**
You re so happy I can see it and that s
A **D**
The worst part of it
G **A**
So let her take you out
D
On sea
G **A**
I will wave to you from the harbor
D
Oh little silly me

Em **A**
The sailors leave in the morning
Dm **A**
I ll be waiting for you all night
Em **A**
The ship sets off in the morning
Em **A**
I ll be waiting for you all right
A **Em**
Oh night
A **Em**
Oh night
A **Em**
Oh night
A
Oh night
