Blind to the Beautiful

Intro: **G**

Interludes between verses are in **G**

Solo phrase is the chords for a verse then *Chorus*.

G **Am** **C**
The stars are fading, ashes to ashes and dust to dust,
G **Am** **C**
The bread we have broken, the wine we drank from tarnished cups,
F **C** **G**
And I stopped believing in miracles a long, long time ago,
F **C** **G**
I lost my faith and I sacrificed my soul,
Am **C** **G**
I worshiped fallen idols, chased false prophets to an end,
Am **C** **G**
To where I just can't see the beautiful anymore

G **Am** **C**
The ice retreating, mountains exposed in the sun,
G **Am** **C**
The earth is baking, raindrops precede the floods
F **C** **G**
And hurricanes with children's names write our history
F **C** **G**
Signatures tracked by satellites on high,
Am **C** **G**
We should have talked about the weather a bit more seriously,
Am **C**
More than stocks and shares and corporate wares,
G-C **G-C** **G**
We were blinded by the skeptics and their greed
Am **C** **G**
I just can't see the beautiful anymore;
Am **C** **G**
I just can't see the beautiful anymore

Am **C** **G**
I howled and I cried when the melody died, the song was finally over,
Am **C** **G**
There was nothing to say, words stole away, their meaning lost in the ether,
F **C** **G**
What there was left stopped making sense, a broken up alphabet, language

dispersed
