Capo 3rd Fret

Verse One

**Am**                    **E**                    **F**  
I caught the train at one o'clock  
**Am**                    **G**                    **C**  
You said you'd meet me, at the next stop  
**Am**                    **E**                    **F**  
You didn't want to so you said that you forgot  
**Am**                    **G**                    **C**  
I caught the train at one o'clock

Verse Two

**Am**                    **E**                    **F**  
I'd ask you what you'd like to do  
**Am**                    **G**                    **C**  
And you just said it didn't bother you  
**Am**                    **E**                    **F**  
You're bad at lying, but you're much worse with the truth  
**Am**                    **G**                    **C**  
I just hope I'm not that hard to see through

**F**   **F**   **F**   **F**  
**C**   **C**   **C**   **C**  
**F**   **F**   **F**   **F**  
**C**   **C**   **G**   **G**

Chorus

**F**                    **C**                    **G**  
Oh have you figured out your fatal flaw?  
**F**                    **C**                    **G**  
I need to tell you something that I have not said before  
**F**                    **C**                    **G**  
I've got the feeling that you know but I'm just making sure  
**F**   **G**                **G#/Gmaj**  
That I'm not losing grip

Verse Three

You said you re sorry that you left  
Made an excuse that it was for the best  
If its so much better then why do I feel so depressed  
Perhaps its another one of your tests

Chorus

Oh have you figured out your fatal flaw?  
I need to tell you something that I have not said before  
I ve got the feeling that you know but I m just making sure  
That I m not losing grip

Bridge

**F**           **G**           **G#/Gmaj**    **Am**  
And we are not too young to wonder  
**F**           **G**           **G#/Gmaj**    **Am**  
And we are not too young to seek  
**F**           **G**           **G#/Gmaj**           **Am**  
And we are not too young to be together  
**F**                            **G**            **G#/G**  
Girl you know were far too young to wait and see

Verse Four

Well look whose sitting in the crowd  
And whose happy with somebody now  
I meant to tell you that I was feeling down  
But I guess I ll wait until I come around

Chorus Outro

Oh have you figured out your fatal flaw?  
I need to tell you something that I have not said before  
I ve got the feeling that you know but I m just making sure  
That I m not losing grip
