

**Its The Things You Do
Five**

CHORUS:

It s the things you do, that have made me fall
So in love with you, you can have it all
What else can I do
Nothing left to prove
It s the things you do

You touched my love line so deep inside I
never thought I d feel so good
Oh no need to hide now, open up your mind now
Let me make it understood because

Nobody ever said to me
All of the things we shared within
Now that I know that you can see
Let me fill you up
