```
When I Remember When
Five
                                                Em
All the things I said, I should have said and didn t say
And I wonder why, yes I wonder why
I think about the time we spent, the places that we went
Still makes me cry, yes, it makes me cry
Am
                                          C
Why do they say that time will heal this broken heart?
They would know it isn t true
If they lost someone like you, oh
[Chorus:]
Some things can never be replaced
Some things are with me for always
These are the things I will remember
When I remember when
Am
I d rather love and lose it all
Than never have you to recall
                               Em
These are the things I will remember
                Am
Again and then again (again and again)
When I remember when
                                Em
You taught me how to love, I am all I am
Because of you, just because of you
                                        Em
```

Everytime I lost my way, you d shine a light, you made my day

```
C
```

You see me through, yes, you see me through

Am

So who s gonna come around to heal this broken heart?

Show me how to laugh and cry

But never how to say goodbye

[Chorus]

This life goes on, you carry on

Em

You do, and it s okay

(When I remember when)

This love goes on, and I will live

To love another day

(Again and then again)

This life goes on, you carry on

Em

You do, and it s okay

I would laugh, and I would cry

Em

But I will never say goodbye

[Chorus]
