Down among the dead men

Captain Smith

The master in command
A man with wealth of wisdom
A fine upstanding man
But the fog He didn't hear the calls
The ice block was waiting
For fifteen hundred souls

And she sailed
Through the night
On her way Down among the dead men
Down among the dead men
The band played
She sailed the virgin
She sailed the sea
Down among the dead men
Down among the dead men
And into history
