Love is the sweet surprise

Only creatures who are on their way
Ever poison their own well
But we still have time to hate
And there s still something we can sell

Peacekeeper take your time
Wait for the dark of night
Soon all the suns will rise

Peacekeeper don t tell why
Don t be afraid to fight
Love is the sweet surprise

Eb **F** **Gm**
Take no prisoners, only kill

You know all of our friends are gods
And they all tell us how to paint our face
But there s only one brush we need
It s the one that never leaves a trace

Peacekeeper take your time
Wait for the dark of night
Soon all the suns will rise

Peacekeeper don t tell why
Don t be afraid to fight
Love is the sweet surprise

Peacekeeper take your time
Wait for the dark of night
Soon all the suns will rise

Peacekeeper don t tell why
Don t be afraid to fight
Love is the sweet surprise

When the night is cold and still
When you thought you ve had your fill
This is not a test, it s not a drill
Take no prisoners, break their will
