

## Dreams

### Flight of the Conchords

Here s Mel s beautiful song from S02E04 for you!

**C**                                **Em7**                                **F (G)**  
Why can t the world be more like in my dreams  
**C**                                **Em7**                                **F (G)**  
It would be full of all my favourite things

**F**                                **G**  
The sun shining in the sky  
**F**                                **G**  
And suddenly I can fly  
**F**                                **G**  
I m a little bird up high  
**F**    **G**  
In V formation with my favourite guys  
**F**                                **G**  
I m a Amelia Earhart  
**F**                                **G**  
My plane has a broken wing  
**F**                                **G**  
My fella s are my propellors  
**F**                                **G**  
And my cookies start to sing

**C**                                **Em7**                                **F (G)**  
Why can t the world be more like in her dreams  
I agree

I won t tell my secrets to foreign spys  
And then rescued by my two favourite guys  
I m instantly pregnant and I can t explain  
And when the pop out they re like Bret and Jemaine  
I m walking to school, folks are staring at me  
Then I look down I m completely naked

What if the world was more like in my dreams

I wake up early in the morning  
Go to school and do a test  
Then all my teeth fall out  
And I m falling to my death

Why can t the world be more like in my dreams
