G                                          Am Em
  Happiness hit her like a train on a track...
G                                            Am Em
  Coming towards her, stuck still no turning back...
G
  She hid around corners and she hid under beds
G                      Am        Em
  She killed it with kisses and from it she fled
      G
With every bubble she sank with her drink
       G        Am          Em
And washed it away down the kitchen sink

    G
The dog days are over
    G
The dog days are done
    G           Am
The horses are coming
   Em
So you better run

    G
Run fast for your mother, run fast for your father
G
Run for your children, for your sisters and brothers
```

```
G                               Am
Leave all your loving, your loving behind
        Em
You cant carry it with you if you want to survive

     G
The dog days are over
     G
The dog days are done
G                       Am
Can you hear the horses?
       Em              G
 Cause here they come

     G G         G      Am       Em
And I never wanted anything from you
       G       G         G          Am          Em
Except everything you had and what was left after that too, oh

G                   G                 G  Am Em
Happiness hit her like a bullet in the head.....
G                           G              G            Am          Em
 Struck from a great height by someone who should know better than that

     G
The dog days are over
     G
The dog days are done
G                   Am
Can you hear the horses?
       Em              G
 Cause here they come

     G
Run fast for your mother, run fast for your father
G
Run for your children, for your sisters and brothers
G                           Am
Leave all your loving, your loving behind
         Em
You cant carry it with you if you want to survive

     G
The dog days are over
     G
The dog days are done
G                   Am
Can you hear the horses?
       Em
 Cause here they come

     G
The dog days are over
```

```
     G
The dog days are done
G                      Am
