

Seven Devils

Florence And The Machine

Am F G  
Holy water cannot help you now  
Am F G  
A thousand armies couldn t keep me out  
Am  
I don t want your money  
F G  
I don t want your crown  
Am F G  
See I ve come to burn your kingdom down

Am F G  
Holy water cannot help you now  
Am F G  
See I ve come to burn your kingdom down  
Am F G  
And no rivers and no lakes can put the fire out  
Am F G  
I m gonna raise the stakes, I m gonna smoke you out

Am  
Seven devils all around me  
F G  
Seven devils in my house  
Am  
See they were there when I woke up this morning  
F G  
I ll be dead before the day is done  
Am  
Seven devils all around you  
F G  
Seven devils in your house  
Am  
See I was there when I woke up this morning  
F G Am  
I ll be dead before the day is done  
F G Am F G  
Before the day is done

Am F G  
And now all your love will be exorcised  
Am F G  
And we will find your sayings to be paradox

And it s an even sum  
It s a melody  
It s a final cry  
It s a symphony

Seven devils all around me  
Seven devils in my house  
See they were there when I woke up this morning  
I ll be dead before the day is done  
Seven devils all around you  
Seven devils in your house  
See I was there when I woke up this morning  
I ll be dead before the day is done  
Before the day is done  
Before the day is done  
Before the day is done

They can keep me out  
Til I tear the walls  
Til I save your heart  
And to take your soul  
For what has been done  
Cannot be undone  
In the evil s heart  
In the evil s soul

Seven devils all around you
