Breathe Today
Intro
B, C, B, A, B, A
Verse 1
                                           B C B A B A
You can only move as fast as who's in front of you
                                             B C B A B A
And if you assume just like them what good will it do
So find out for yourself
                                     B C B A B A
So your ignorance will stop bleeding through
Chorus
B A B
You can breathe today
B A C
So many lies swirling around you
    G
You're suffocating
        Α
The empty shape inside of you
Steals your breath
A G F#
You're suffocating
Verse 2
Logic forces me to believe in this
                   B C B A B A
And I have learned to see
I can only say what I've seen and heard
                 B C B A B A
Tell me you can choose
```

Chorus 2

Suit your own self

And every choice you make will effect you
