

Sorrow  
Flyleaf

sorry that it is just the chorus... I cold not figure out the rest of it...

**C**      **A**                  **G**  
Sorrow lives through this night

**C**                              **A**      **G**  
I ll take this piece of you and hope for all eternity

**C**          **A**                  **G**  
for just one second I felt whole

**A**              **C**          **A**  
as you flew right through me

>XD
