

**I Just Wanna Make Love To You**  
**Foghat**

Ok i heard this song on the radio and i thought it had awesome bass so  
i looked all over the net and couldnt find anything so i tabbed it  
myself...its most likely wrong but it sounds pretty good..  
normal E A D G tuning

do this part at the very begining while the guitars are dueling

G-----  
D-----  
A-----2-0-----2-0-----  
E-222222-----222222-----

then when the guitars join in its

G-----  
D-----  
A-----2-0-----2-0-----  
E-22-2-2-2-----2-2-2-----

for the little slide at the beginning jus go from the 2 to the 5th fret  
then back on the Estring....this isnt the whole song.. and its probably  
wrong...but its the best i could do...E mail me with feedback or  
corrections
