For King And Country

Tab by Dallas Holder

D            A            D            D  
Sunset stole the light  
          D            A            D            D  
That colored in your eyes  
          D            A            D            D  
And everything in sight  
          Bm          A            D            D  
Was lost in silhouette  
          Bm          A            D            D  
You re lost in silhouette

Bm                            G          A            A  
Light it up and let it go  
          Bm                            A          G            G  
Don t you see that you are not alone?  
Bm                            G            A            A  
Light it up and watch it fly  
                                  Bm                            A            G            G  
Cause you can go anywhere you want tonight

D                    A                    G                    A

D                    A                    G                    A  
Light it up, light it up

D            A            D            D  
I could bear the weight  
          D            A            D            D  
And take it all away  
          D            A            D            D  
But every creature s fate  
          Bm            A            D            D  
Is theirs and theirs alone  
          Bm            A            D            D  
It s Yours and Yours alone

And everyone you never knew,

**G** **A**

And everywhere you're going to

**D** **A**

And every song you wanna sing,

**G** **A**

And every smile as it begins,

**D** **A** **G** **A**

It's yours and yours alone

**D** **A** **G** **A**

Yes it's yours and yours alone

**D** **A** **G** **A**

Instead it's yours and yours alone

**Bm** **G** **A** **A**

Light it up and let it go

**Bm** **A** **G** **G**

Don't you see that you are not alone?

**Bm** **G** **A** **A**

Light it up and watch it fly

Cause you can go anywhere you want tonight

**Bm** **G** **A** **A**

Light it up and let it go

**Bm** **A** **G** **G**

Don't you see that you are not alone?

**Bm** **G** **A** **A**

Light it up and watch it fly

**Bm** **A** **G** **G**

Cause you can be anything you want tonight

**D** **A** **D** **D**

It could be a beautiful morning
