*verse 1*

```
G      G              G              D
I live a life that s surreal where all that I feel I am learning.
      G              G              G
My life is like an ever-spinning wheel fueled by a flame that s still
D
Burning.
      Em              D              G
And in time, it s all a sweet mystery
      C              G              D
When you shake the tree of temptation
      Em              D              G
Yeah, and I_I know the fear and the cost
      C              G              D
Of a paradise lost in frustration
```

```
      G              D              Am              G      D
And the flame still burns It s there in my soul, forever I know
      G              D              Am
And the flame still burns From a glimmer back then
      G              D              C      C
It lights up again in my life
```

*verse 2*

```
      G              C              G
Oh, I_I want my thoughts to be heard
      C              G              D
The unspoken words of my wisdom
      G              C              G
```
