Luna Alt Mode
Forest Rain

Capo on 1
NOTE: This is based on Forest Rain s ridiculously high cover. (Which has a nice extra verse)
For Odyssey Eurobeat/EurobeatBrony s original key, use **Em C A G B** / **Em C D B**
(keeping the capo on 1)
Using just the second set of chords might be more accurate, but I prefer it this way.
Enjoy, rate, and spread it around.

```
Bm                                 G
For a thousand years  I ve waited here for you
              Em
Waiting every night
                             D           F#
For I thought you were the answer to my life
Bm                                 G
Days turned into years and into centuries
               Em
Patience had to fade
                        D              F#
Don t you see that there is vengeance in my eyes?

Bm              G
Luna won t you cry for me
        A           F#
I m as lonely as I ve ever been
      Bm          G
I am forced back into the start
          A         F#              Bm
Is there any way to fix a broken heart?

Bm                                 G
Infinite despise and endless jealousy
                Em
Bottled in my soul
                      D                 F#
Has erupted as I m tearing through the skies
Bm                                 G
I am the creature now that feasts upon your dreams
                       Em
and turns them to nightmares
                     D                 F#
Now my anger will bring forth an infinite night

Bm              G
Luna won t you cry for me
```

```
       A                  F#
I m as lonely as I ve ever been
      Bm          G
I am forced back into the start
          A         F#            Bm
Is there any way to fix a broken heart?
