Luna Alt Mode
Forest Rain

Capo on 1
NOTE: This is based on Forest Rain s ridiculously high cover. (Which has a nice
extra verse)
For Odyssey Eurobeat/EurobeatBrony s original key, use **Fm C# Bb G# C** / **Fm C# Eb
C**
(keeping the capo on 1)
Using just the second set of chords might be more accurate, but I prefer it this
way.
Enjoy, rate, and spread it around.

```
Cm                                      G#
For a thousand years  I ve waited here for you
              Fm
Waiting every night
                            Eb             G
For I thought you were the answer to my life
Cm                                      G#
Days turned into years and into centuries
                Fm
Patience had to fade
                        Eb                 G
Don t you see that there is vengeance in my eyes?

Cm              G#
Luna won t you cry for me
       Bb                 G
I m as lonely as I ve ever been
      Cm          G#
I am forced back into the start
           Bb          G           Cm
Is there any way to fix a broken heart?

Cm                                      G#
Infinite despise and endless jealousy
                Fm
Bottled in my soul
                      Eb                  G
Has erupted as I m tearing through the skies
Cm                                      G#
I am the creature now that feasts upon your dreams
                        Fm
and turns them to nightmares
                      Eb                 G
Now my anger will bring forth an infinite night

Cm                G#
```

Luna won t you cry for me
