-I noticed there weren't any chord versions of this song, and being that the tabs are rather difficult, I thought I would post this.

Standard Tuning: Capo II

-however, there are other recordings of this song I have heard where the Capo is on III, depending on what recording of this song you listen to for reference, Capo could be on II or III

Verse 2: repeat Chorus 2 chord structure

I watch her as she runs, my mother jumps the gun

She puts her in her arms, that is just like my mom

Never lets go, never lets me grow old, I wanna pay her back

But love is nothing you can tax

My family s not rich by any means

But I feel we won the lottery, that day

The rock swallowed the girl, and I cried as cameras caught my eyes

My tears turned into butterflies, they fly away as caskets close

A new day comes you ll wake unfolding, smile when you feel the sunlight

You feel the sunlight, you feel the sunlight

Outro Chorus: Use Chorus 2 chord structure

Snails see the benefits, the beauty in every inch

So why, why, why, why, why, are you quick to kiss?

Baby, maybe I spoke too soon

I ll touch you once you make the first move

Snails see the benefits, the beauty in every inch, oh

Snails see the benefits, the beauty in every inch
