

Brand New Day
Forty Foot Echo

Ok guys this is the first song I ve ever tabbed(or chorded, or whatever)so bear with me. It sounds right so I hope it is. There is one chord, however, that I m not sure about (the D in the chorus: try playing it by taking your finger off the bottom string), so if you can get the right chord, let me know because I really want to know how to play this song exactly.
